1 Introduction	1
1.1 Motivation	1
1.2 Research questions	2
1.3 Objectives	3
1.4 Thesis contributions	4
1.4.1 Main contributions	4
1.4.2 Complementary contributions	6
1.4.3 Main scientific publications	6
1.4.4 Complementary scientific publications	7
1.5 Projects and partners	8
1.6 Grants	9
1.7 Research stays	10
1.8 Thesis outline	10
2 Rationale	13
2.1 Out-of-hospital emergency medical triage	13
2.1.1 Background and definitions	13
2.1.2 Emergency medical call incidents triage protocols	14
2.1.3 Emergency medical triage in the Valencian Region	15
2.2 Machine Learning	17

2.2.1	Background and definitions	17
2.2.2	Tasks	18
2.2.3	Models	21
2.2.4	Multitask Learning	27
2.2.5	Meta-learning	29
2.2.6	Dataset shifts	31
2.2.7	Continual learning	33
2.3	Deep Learning	35
2.3.1	Background and definitions	35
2.3.2	Parameter tuning	41
2.3.3	Feed-forward neural networks	45
2.3.4	Recurrent neural networks (RNN)	46
2.3.5	Transformers	48
2.4	Machine Learning models for Emergency Medical Call Incidents triage	54
3	Deep ensemble multitask classification of emergency medical call incidents	57
3.1	Introduction	58
3.2	Materials	60
3.2.1	Dataset	60
3.2.2	Framework	64
3.3	Methods	65
3.3.1	Data pre-processing	65
3.3.2	Data splitting and sampling	66
3.3.3	Deep neural network design	67
3.3.4	Parameter tuning	68
3.3.5	Hyperparameter tuning	70
3.3.6	Evaluation	71
3.4	Results	72
3.4.1	Life-threatening level	73
3.4.2	Admissible response delay	75
3.4.3	Emergency system jurisdiction	77
3.5	Discussion	79
3.5.1	Relevance	79
3.5.2	Limitations	80
3.5.3	Future work	80
3.6	Conclusions	81
4	Discovering key topics in emergency medical dispatch from free text observations	83
4.1	Introduction	84
4.2	Materials and Methods	85
4.3	Results	86

4.4	Discussion	88
4.5	Conclusions	89
5	Deep continual learning for emergency medical call incidents text classification	91
5.1	Introduction	92
5.2	Materials	94
5.2.1	Dataset	94
5.2.2	Framework	95
5.3	Methods	95
5.3.1	Data preparation	95
5.3.2	Dataset shifts assessment	96
5.3.3	Modeling	97
5.3.4	Continual learning baselines	98
5.3.5	Continual learning strategies	99
5.3.6	Evaluation	100
5.3.7	Hyperparameter tuning	102
5.4	Results	102
5.4.1	Dataset shifts assessment	102
5.4.2	Continual learning	106
5.5	Discussion	109
5.5.1	Relevance	109
5.5.2	Limitations	111
5.5.3	Future work	111
5.6	Conclusions	111
6	Deep continual multitask classification of emergency medical call incidents	113
6.1	Introduction	114
6.2	Materials	115
6.2.1	Dataset	115
6.2.2	Framework	116
6.3	Methods	116
6.3.1	Data preparation	116
6.3.2	Dataset shifts assessment	118
6.3.3	Deep neural network design	119
6.3.4	Parameter tuning	121
6.3.5	Continual Learning	122
6.3.6	Hyperparameter tuning	125
6.3.7	Evaluation	126
6.4	Results	127
6.4.1	Dataset shifts assessment	127
6.4.2	Continual learning	130

6.5	Discussion	139
6.5.1	Relevance	139
6.5.2	Limitations	140
6.5.3	Future work	140
6.6	Conclusions	141
7	Deep continual multitask multimodal classification of emergency medical call incidents	143
7.1	Introduction	144
7.2	Materials	145
7.2.1	Dataset	145
7.2.2	Framework	146
7.3	Methods	146
7.3.1	Data preprocessing	146
7.3.2	Data splitting	147
7.3.3	Deep neural network design	148
7.3.4	Parameter tuning	155
7.3.5	Continual Learning	155
7.3.6	Hyperparameter tuning	156
7.3.7	Evaluation	157
7.4	Results	157
7.4.1	Baseline performance in CORDEX	157
7.4.2	Performance with training up to the current year	159
7.4.3	Performance with training up to the previous year	162
7.4.4	Relative performance variation	165
7.5	Discussion	166
7.5.1	Relevance	166
7.5.2	Limitations	167
7.5.3	Future work	167
7.6	Conclusions	167
8	A Deep Learning tool to classify out-of-hospital emergency medical incidents	169
8.1	Introduction	170
8.2	Materials and methods	171
8.2.1	Deep Learning tool design and implementation	171
8.2.2	Basic functionality assessment	173
8.3	Results	174
8.3.1	Deep Learning tool design and implementation	174
8.3.2	Basic functionality assessment	177
8.4	Discussion	180
8.4.1	Relevance	180
8.4.2	Limitations	181

8.4.3	Future work	181
8.5	Conclusions	181
9	Concluding remarks and recommendations	183
9.1	Concluding remarks	183
9.2	Recommendations	186
