Introducción	1
Objetivos	37
Estructura	41
Capítulo 1	47
Performance of a resistant starch rich ingredient in the baking and eating quality of short-dough biscuits.	49
Study on Resistant Starch Functionality in Short Dough Biscuits by Oscillatory and Creep and Recovery Tests.	87
Role of fibre morphology in some quality features of fibre-enriched biscuits.	111
A new sensory tool to analyse the oral trajectory of biscuits with different fat and fibre contents.	141
Capítulo 2	171
Balancing texture and other sensory features in reduced fat short-dough biscuits.	175
HPMC and INULIN as fat replacers in biscuits: sensory and instrumental evaluation.	205
Capítulo 3	231
Inulin and erythritol as sucrose replacers in short dough cookies. Sensory, fracture and acoustic properties.	235

Understanding the effect of sugar and sugar replacement in
short dough biscuits. **259**

Resumen y discusión de los resultados **293**

Conclusiones **303**
